**P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

The property at 1305-1317 N. Crescent Heights Boulevard is located at the northwest corner of N. Crescent Heights and Fountain Avenue. It comprises a rectangular parcel improved with two institutional buildings. Research indicates that the more southerly building is occupied by Hollywood Temple Beth El, the West Hollywood Preparatory College, and Touro College and that the more northerly building serves as an event venue with two banquet hall spaces, Neman Hall and Sapper Hall.

The building to the south is 'U'-shaped in plan with three main volumes: a three-story temple in the center flanked by smaller one- and two-story volumes, all with flat roofs surrounded by shallow parapets. On the northeast corner of the northernmost volume is a low, domed roof constructed of plaster or concrete applied to metal lathe. The exterior walls are clad in stucco. Entrances consist of wood doors and windows are largely single-light metal casements.

B9a. Architect: William Harry Hillier B9b Builder: Unknown

\*B10. Significance: Theme History of the Jewish Community in West Hollywood B10 Area: West Hollywood

Period of Significance: \_\_\_\_\_ Property Type: Religious, Educational Applicable Criteria: N/A

(Discuss importance in terms of historical or architectural context as defined by theme, period, and geographic scope. Also address integrity.)

This property was evaluated as part of an expedited review during the 2022-2023 multi-family survey update. As an example of a postwar synagogue, the property was evaluated for potential historic significance related to Hollywood Temple Beth El and the history of the Jewish community in the region, postwar synagogue design, and more recent associations with the Iranian Jewish community.

Upon further research and evaluation, it is ineligible for listing in the National Register and California Register or for designation as a West Hollywood Cultural Resource through survey evaluation (6Z). It does not appear to meet the criteria for significance under national, state, or local landmark programs, nor National Register Criteria Considerations A and G.

Based upon a review of available documentation (such as building permits, Sanborn Maps, and satellite imagery) as well as visual observation from the public right-of-way, the integrity of the North Building has been diminished by changes to the primary elevation.

P3a. Description (Continued from Page 1): The building to the north is rectangular in plan with a flat roof. The exterior walls are painted concrete block and smooth concrete pilasters evenly spaced along the east and north elevation. A full-height colonnade with square columns extends the width of the elevation. The only opening on the primary elevation is the centered main entrance, consisting of a recessed, arched metal and glass door with operable side panel doors, all within a decorative surround. Windows consist of tall, fixed, single-light wood frame windows.

\*B10. Significance: Theme Single-Family Residences and Secondary Dwellings B10 Area: West Hollywood

Period of Significance: 1895-1925 Property Type: Residential Applicable Criteria: N/A

(Discuss importance in terms of historical or architectural context as defined by theme, period, and geographic scope. Also address integrity.)

This property was evaluated as part of an expedited review during the 2022-2023 multi-family survey update.

Upon further research and evaluation, it is ineligible for listing in the National Register and California Register or for designation as a West Hollywood Cultural Resource through survey evaluation (6Z). The property was previously improved with a c. 1920 single-family residence that was partially demolished in 2018, and no longer reflects a specific property type or architectural style. The rear building on the property possesses some character-defining features of the Duplex property type, but lacks distinguishing architectural detailing and has diminished integrity when compared to similar properties in West Hollywood.

Based upon a review of available documentation (such as building permits, Sanborn Maps, and satellite imagery) as well as visual observation from the public right-of-way, the rear building's integrity of design, workmanship, and materials have been diminished by alterations in 2015, including modifications to the door and window openings and replacement of all windows.

\*B10. Significance: Theme Courtyard Apartments: Bungalow Courts B10 Area: West Hollywood

Period of Significance: 1910-1940 Property Type: Residential Applicable Criteria: Local: A1/A3

(Discuss importance in terms of historical or architectural context as defined by theme, period, and geographic scope. Also address integrity.)

This property was evaluated as part of an expedited review during the 2022-2023 multi-family survey update.

943 Hancock Avenue appears eligible for designation as a West Hollywood Historic Resource (5S3) as an individual property through survey evaluation. It is significant in the context of Multi-Family Residential Development under local criteria A1 and A3 for representing residential and cultural patterns that comprised the growth of West Hollywood and as a fully realized example of the bungalow court property type. As the buildings themselves do not reflect a particular style of architecture, the property appears unlikely to meet state or national thresholds for significance. It possesses most character-defining features of Bungalow Court property type, as outlined in the 2024 Historic Context Statement of Residential Properties in the R2, R3, & R4 Multi-Family Zoning Districts.

In the decades before World War II, the rising demand for housing in West Hollywood was increasingly at odds with the general cultural preference for single-family development, reflected by zoning practices adopted during this era. During this paradigm shift, the construction of architecturally distinctive and compatibly scaled multi-family housing was generally well received.

The bungalow court is a multi-family property type consisting of free-standing units thoughtfully arranged around a common landscaped open space. It emerged in Southern California in the early twentieth century and was popular prior to World War II. For developers, they allowed for greater density on a lot while being less expensive to construct than an apartment house; for residents, they made a detached home more affordable while creating a sense of community.

Based upon a review of available documentation (such as building permits, Sanborn Maps, and satellite imagery) as well as visual observation from the public right-of-way, the property retains all necessary aspects of integrity from the period of significance. (See continuation sheet.)

**P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This is a 2-story duplex in the Spanish Colonial Revival style built in 1926. The building is rectangular in plan. Exterior walls are stucco. Ornamentation consists of a clay tile overhang above a second-story window with carved brackets. The building has a flat roof with a raised parapet. Windows consist of wood fixed and casement windows. Entrances to both units are located within a recessed entryway sheltered by a projecting porch with arched openings. The entrances consist of single wood doors. The entryway is accessed by a set of concrete steps. There is a two-story detached garage building to the rear of the property. The property has a front yard area with brick planters, hedges, shrubs, and a concrete walkway leading to the vestibule. At the south edge of the property there is a hardscaped brick paver parking area and a portion of concrete driveway.

\*B10. Significance: Theme Apartment Houses: Duplexes and Fourplexes; Period Revival: Spanish Colonial Revival B10 Area: West Hollywood

Period of Significance: 1920-1945; 1922-1949 Property Type: Residential Applicable Criteria: N/A

(Discuss importance in terms of historical or architectural context as defined by theme, period, and geographic scope. Also address integrity.)

This property was evaluated as part of an expedited review during the 2022-2023 multi-family survey update.

Upon further research and evaluation, it is ineligible for listing in the National Register and California Register or for designation as a West Hollywood Cultural Resource through survey evaluation (6Z). It does not appear to meet the criteria for significance under national, state, or local landmark programs. Although it possesses character-defining features of the Duplex property type, it is an unremarkable example of the Spanish Colonial Revival style and does not appear to have an important association with multi-family residential development in West Hollywood.

Based upon a review of available documentation (such as building permits, Sanborn Maps, and satellite imagery) as well as visual observation from the public right-of-way, the property has undergone minor alterations but retains integrity overall.

A Historical Resource Evaluation was prepared in 2023 in anticipation of a proposed redevelopment project. The assessment concluded that the property was a typical example of the Spanish Colonial Revival style and did not appear eligible for listing in the local, state, or national levels under any criterion, nor did the concentration of multi-family housing on the 800 block of Hilldale Avenue appear to constitute a historic district. GPA concurs with this finding.

This is a 2-story duplex in the Spanish Colonial Revival style built in 1926. The building is rectangular in plan. Exterior walls are stucco. Ornamentation consists of decorative metal awnings above the main windows on the first and second stories. The building has a flat roof with a raised parapet. Windows consist of wood fixed and casement windows. Entrances to both units are located within a recessed entryway sheltered by a projecting porch with arched openings. The entrances consist of single wood doors. The entryway is accessed by a set of concrete steps. There is a two-story detached garage building to the rear of the property. The property has brick planters, hedges, shrubs, and a concrete walkway leading to the vestibule. The majority of the area surrounding the building is hardscaped with brick pavers. There is a dual ribbon concrete driveway along the south edge of the property.

**P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This is a 1-story fourplex built in 1925. The building is U-shaped in plan. Exterior walls are stucco. The building has a flat roof with a raised parapet. Wood windows appear to be casement in operation. Entrances to individual units are arranged in pairs under a projecting porch sheltered by a flat roof and supported by fluted posts. Entrances consist of single wood doors. The porches are accessed by sets of concrete steps. The center of the U-shaped plan is enclosed with a metal door and a corrugated fiberglass panel. There is a 1-story ancillary building to the rear of the property. There are stucco planters with mature trees and plants that obscure much of the building from the public right-of-way. There is a concrete driveway along the south edge of the property.

(Discuss importance in terms of historical or architectural context as defined by theme, period, and geographic scope. Also address integrity.)

This property was evaluated as part of an expedited review during the 2022-2023 multi-family survey update.

Upon further research and evaluation, it is ineligible for listing in the National Register and California Register or for designation as a West Hollywood Cultural Resource through survey evaluation (6Z). It does not appear to meet the criteria for significance under national, state, or local landmark programs. It is not a fully realized example of any multi-family property type and lacks distinguishing architectural detailing; therefore, it is not emblematic of the residential development patterns that comprised the growth of West Hollywood.

Based upon a review of available documentation (such as building permits, Sanborn Maps, and satellite imagery) as well as visual observation from the public right-of-way, the property has undergone minor alterations but retains integrity overall.

A Historical Resource Evaluation was prepared in 2023 in anticipation of a proposed redevelopment project. The assessment concluded that the property did not appear eligible for listing in the local, state, or national levels under any criterion, nor did the concentration of multi-family housing on the 800 block of Hilldale Avenue appear to constitute a historic district. GPA concurs with this finding.

Period of Significance: 1895-1925; 1924-1942 Property Type: Residential Applicable Criteria: N/A

(Discuss importance in terms of historical or architectural context as defined by theme, period, and geographic scope. Also address integrity.)

This property was identified in the 2022-2023 reconnaissance survey as a potentially significant example of the Tudor Revival style. Upon further research and evaluation, it is ineligible for listing in the National Register and California Register or for designation as a West Hollywood Cultural Resource through survey evaluation (6Z). It does not appear to meet the criteria for significance under national, state, or local landmark programs. Although intact, it is an unremarkable example of the Tudor Revival style, and does not appear to have an important association with residential development in West Hollywood; therefore, it is not emblematic of the residential development patterns that comprised the growth of West Hollywood.

Based upon a review of available documentation (such as building permits, Sanborn Maps, and satellite imagery) as well as visual observation from the public right-of-way, the property has undergone minor alterations but retains integrity.

**P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

This is a 1-story single-family residence built in the Craftsman style in 1923. The building is rectangular in plan. Exterior walls are horizontal wood siding. The building has a side-gabled roof clad in composition shingles with open eaves, exposed rafter tails, and knee braces. Windows consist of hung and sliding vinyl windows, glass block windows, and a multi-light fixed wood window. The main entryway is sheltered beneath a projecting porch with a gabled roof, supported by simple wood posts and enclosed by a simple wood railing. There is a 1-story, detached garage to the rear of the main building. Landscaping consists of a brick planter and mature tree in a front yard surrounded by a metal fence. A centered concrete walkway leads to the porch and there is a side driveway at the south end of the property.

\*B10. Significance: Theme Single-Family Residences and Secondary Dwellings; Craftsman B10 Area: West Hollywood

Period of Significance: 1895-1925; 1906-1931 Property Type: Residential Applicable Criteria: N/A

(Discuss importance in terms of historical or architectural context as defined by theme, period, and geographic scope. Also address integrity.)

This property was evaluated as part of an expedited review during the 2022-2023 multi-family survey update.

Upon further research and evaluation, it is ineligible for listing in the National Register and California Register or for designation as a West Hollywood Cultural Resource through survey evaluation (6Z). It does not appear to meet the criteria for significance under national, state, or local landmark programs. The property possesses some character-defining features of the Single-Family Residence property type and Craftsman architectural style, but lacks distinguishing architectural detailing and has diminished integrity when compared to similar properties in West Hollywood.

Based upon a review of available documentation (such as building permits, Sanborn Maps, and satellite imagery) as well as visual observation from the public right-of-way, the integrity of design and materials have been diminished by the installation of incompatible new windows.

Historic Resources Assessments were prepared for the property in 2018 and 2019 in anticipation of a proposed redevelopment project. The assessments both concluded that the property did not appear eligible for listing in the local, state, or national levels due to a lack of historical associations, architectural distinction, and integrity. GPA concurs with these findings.
